THE HOSPITAL SERVICE

Likely to Be Reorganized by Secretary Alger.

OBJECTIONABLE FEATURES

Of Regimental Hospitals Can Be Removed at Present.

GOOD POINTS OF ALL RETAINED.

After Consulting the Commanding and Medical Officers During His Trip, Secretary Alger Proposes to Combine Regimental and Division Hospitals.

Washington, Sept. 30.—Important results are likely to follow the extensive tour of inspection of the military camps just completed by Secretary Alger.

This is especially so in the matter of reorganizing the hospital service in the field.

The secretary conferred closely with not only the commanding officers and medical officers at the camps, but especially with the fifteen colonels whom he met, looking to the ascertainment of their views upon the relative merits of the division hospital and the regimental hospital.

Each had strong advocates and it remained for the secretary to endeavor to reconcile their divergent views. The defect of the division hospital, in the mind of the soldiers, is the separation of the soldiers of the same regiment, causing great discontent, low spirits and discouragement.

The men will often go to great lengths to conceal real illness in order to escape being sent to the hospital.

Against the regimental hospitals it is urged that the men cannot be properly taken care of with troops on the move, with no female nurses and with a lack of every sanitary and medical device that modern practice has come to regard as essential.

Nowhere were the complaints of neglect and insufficient accommodation for the sick so numerous as in the cases of these regimental hospitals in the early stages of the war. Many of the objectionable features of these can be removed in times of peace.

Secretary Alger has framed a project for the amalgamation of the hospitals in such manner as to retain the most desirable features of both. His plan is to have the division hospital arranged in sections of tents, lying in wings branching off from a central aisle.

Then the section are to be allotted to the different regiments in the division, each in care of one of the regimental doctors, yet receiving the attention of the high class talent and female nursing which is possible only in the big division hospitals.

FLOATING THE COLON.

Naval Officials Firmly Believe Young Hobson Can Do the Job.

Washington, Sept. 30.—Assistant Secretary Allen said, referring to Constructor Hobson's work on the Teresa, that the navy department had given the young constructor all of the assistance which it was possible to extend in the prosecution of his work. Moreover, it is now proposed to give him further aid in his effort to raise the Colon, by far the finest ship of the Spanish squadron.

In the case of this ship the young constructor has pledged his professional reputation against the unanimous opinion of all the expert wreckers who have examined the ship. Yet, the navy department is unhesitatingly supporting Hobson's judgment, as is indicated by the fact that it shipped from New York \$20,000 worth of specially manufactured rubber air bags to be used in lifting the Colon. The navy department is satisfied, from the reports of the divers who have investigated her condition, that she is well worth, from a money point of view, an expenditure of a considerable percentage of her original value, about \$4,000,000, if there is a reasonable prospect of raising her.

Launching a New Republic.

Manilla, Sept. 30.—At Malolos, Friday, Aguinaldo will formally inaugurate the republic of the Philippines by a great celebration. Invitations have been extended to the principal army officers and newspaper correspondents here. A thousand natives will attend. The "dictator" will review his army and will probably issue proclamations to the nations of the world setting forth the intentions of his government.

For Occupation of Cuba.

Washington, Sept. 30.—The following order for the occupation of Cuba was issued by command of Major General Miles: "By direction of the secre-

tary of war the Fourth United States volunteer infantry, detached from the Seventh army corps, will be placed in readiness for immediate service in Cuba, and proceed fully armed and equipped to take station at Manzanillo."

Dined Together.

Paris, Sept. 30.—The breakfast at which the two peace commissioners met for the first time was a purely informal affair given by M. Delcasse in his private apartments at the foreign office. The Spanish commissioners arrived first, accompanied by the Spanish ambassador here, Senor Leon y Castillo, and the secretary of the Spanish embassy. The United States ambassador, General Horace Porter, and Henri Vignaud, the secretary of the United States embassy, arrived at the foreign office before the American commissioners and awaited them there. The American party arrived on the stroke of 12:30, the hour fixed.

Army Promotions.

Washington, Sept. 30.—Major General Hamilton S. Hawkins, United States volunteers, who commanded the division which captured San Juan hill in the second day's fight at Santiago, has been appointed a brigadier general in the regular army to fill the vacancy caused by the retirement of General William M. Graham. Immediately after receiving his commission he will be placed on the retired list on his own application under the 30 years' service clause, and this will enable the president to similarly advance Major General J. F. Kent, United States volunteers, to the grade of brigadier general of the regular army.

Cuban Mounted Police.

Santiago, Cuba, Sept. 30.—Arrangements have been completed for the formation of a force of Cuban mounted police for the province of Santiago. It consists of a commandant, with the rank of major, three captains, six lieutenants, ten sergeants and 240 enlisted men. The rates of pay of the enlisted men are the same as in the United States army.

General Shafter Ill.

New York, Sept. 30.—General Shafter is still indisposed at Camp Wikoff and did not leave his headquarters at the club house. He has malarial fever and has had several chills, but no serious results are looked for. He is able to give orders and they are executed by Colonel McClellan, the adjutant.

Entitled to Pay.

Washington, Sept. 30.—An order of the war department directs that sick and wounded soldiers granted furloughs are entitled to \$1.50 per day commutation and transportation when traveling to and from their homes to and from posts of duty.

Duffield Ill.

Sick Were Removed.

New York, Sept. 30.—Forty sick men were transferred from Camp Wikoff in a hospital train, and will be distributed among New York institutions.

Death of an Ohio Boy.

New York, Sept. 30.—John L. Carpenter of company C, Eighth Ohio volunteers, died at St. Francis hospital.

SAVED BY A CLOTHESLINE.

A Dozen Persons Escape Death by Fire in a Singular Manner.

Chicago, Sept. 30.—A clothesline attached to a window saved the lives of a number of people in a 4-story apartment house, fire having cut off other means of egress. A dozen persons, including a number of women and children, slid down the line and escaped. Seventeen other people were rescued by firemen with ladders. Five persons were injured by the flames or by jumping from windows.

The fire broke out in a basement and the burning chemicals made a quick fire, precipitating a panic among the inmates, who rushed for the windows. The financial loss was small.

London's New Lord Mayor.

London, Sept. 30.—Sir John V. Moore, an alderman of the city of London and senior partner of Moore Brothers, tea merchants, has been elected lord mayor of London, to succeed Horatio David Davies, the present incumbent of that office. He was born in 1826, has represented the ward of Candlewick since 1889, and was sheriff of the city of London in 1893-94.

EDHEM PASHA LEAVES.

He Is Deprived of Governorship of Crete.

BLAMED FOR RECENT RIOTS.

The Turkish Authorities Have Ceased Surrendering Arms on the Ground That the Disarmament Has Now Been Completed.

Candia, Crete, Sept. 30.—Edhem Pasha, the Turkish governor, who is chiefly blamed for the recent rioting here, has been deprived of the governorship and started for Smyrna.

The delays and subterfuges in complying with the orders of Admiral Noel, the British commander in these waters, increase. The Turkish authorities have ceased surrendering arms, and are pretending that the disarmament has been completed. The British officers propose to search suspected houses.

They have discovered that many of the men surrendered to Admiral Noel as ring leaders of the rioting are innocent, while the guilty are still at liberty.

A detachment of 800 British blue jackets was paraded through the town.

Djevalo Pasha, the local Turkish military commander, has consented to remove the Turkish troops to the suburbs.

Deep Sea Sealing.

San Francisco, Sept. 30.—An authentic report regarding the pelagic sealing fleet has just been received in this city. Among the poachers that have made the largest catches were the following: Enterprise, 533 skins; Minnie, 400; San Diego, 673; Theresa, 320, and Otto, 727. Those skins, being excluded from the United States, are shipped to England, where they are disposed of at reduced rates.

Carnegie's Ordnance Plant.

Cleveland, Sept. 30.—Commenting on the reported projects of Mr. Carnegie to build an ordnance plant, a shipyard on the Monongahela and a railroad from Braddock to tidewater, the Iron Trade Review says: "The ordnance proposition is the single one that has a shred of foundation, and of that there is just enough to indicate that an ordnance plant is a possibility at some time."

Can't Take 'Em All In.

Washington, Sept. 30.—Many cities, not heretofore considered, wish to be included in the itinerary of the president's trip west in connection with the Omaha exposition. Mr. McKinley, however, has planned to spend only a fortnight away from Washington, and this will necessitate a reluctant declination of numerous invitations.

Chance For the Pugs.

Pittsburg, Sept. 30.—Police Superintendent Muth of Allegheny says that Corbett and McCoy can spar here during the week of the Knights Templar convocation, but that a fight to a finish will not be permitted. The city will be open for all kinds of legitimate sport for the entertainment of the visitors.

New Bremen, O., Sept. 30.—While drilling in an oil well on the Wenker farm C. Knost lost his life and Louis Donnersburg's skull was fractured and he is not expected to live. Both went into the well to make repairs, but were overcome by gas on the way up and fell to the bottom of the well.

Mail For Manila Boys.

Manilla, Sept. 30.—The transport Arizona, having on board navy recruits and an immense lot of mail, arrived. This is the first home mail for several months. There has been much adverse comment over the lack of mail facilities, and the army of occupation is rejoicing that letters have arrived.

Plot to Poison the King.

Buda Pest, Sept. 30.—A man has been arrested at Orsova charged with complicity in a plot to assassinate the King of Roumania. The police received timely warning and the attempt was frustrated. A phial of poison, a dagger and several other weapons were found in the man's possession.

IS IT FOUL PLAY?

Female Witness in a Trial at Zanesville Found Dead.

Zanesville, O., Sept. 30.—The dead body of Cora Bradley of Marietta was found in an alley north of Main street. She came here three weeks ago to testify in a murder trial and has been on a protracted spree ever since. Her death is attributed to alcoholism by the coroner. She was an important witness in another case, and the fact that she was with some drunken man led to the suspicion of foul play.

Worst in a Gale.

Port Townsend, Wash., Sept. 30.—The steamship Farallon has arrived from Lynn canal ports bringing 70 passengers from various sections of southwestern Alaska. The Farallon picked up the wrecked schooner Capella in Seaforth channel and towed her to Bella Bella. The Capella sailed from Seattle for Wrangell, and when 100 miles off Cape Flattery a heavy gale was encountered. The little schooner's boats and hatches were carried away, and Captain Jones Nordland washed overboard and drowned.

The Queen's Last Moments.

Copenhagen, Sept. 30.—The Kings of Denmark and Greece and the Princess of Wales, alternately, during many hours, held the hands of the dying queen, who for a few moments recovered consciousness, but who could not speak. Her husband wept and the physicians requested him to retire to rest, but he replied: "I will stay at least while the queen is conscious." Everywhere the flags are at halfmast. The queen did not die of any special illness, but of increasing decrepitudes.

Charged With Swindling.

Greenville, O., Sept. 30.—Professor Harold Leo, an alleged clairvoyant, is in jail here on the charge of swindling. He boarded at the home of Mrs. Sarah Aukerman and had persuaded the latter to enter into business, she turning over to him her money, jewelry and a deed to 80 acres of land. His actions aroused the suspicions of the officers, who placed him under arrest. The lady still clings to him, despite protestations of her husband and friends.

Forest Fires in Wisconsin.

Chippewa Falls, Wis., Sept. 30.—Forest fires are raging to an alarming extent in this section. Hundreds of farmers are working night and day fighting the flames. Four homes and other buildings have been destroyed, and many persons seriously burned. Only a heavy fall of rain will prevent a serious loss. The Wisconsin Central passenger train passed through what was almost a sea of fire between Boyd and Cadott.

Hay Glad He's Home.

Washington, Sept. 30.—Colonel Hay expressed much satisfaction at getting home after his extended absence abroad. On pending public questions, Colonel Hay asked to be excused from talking. He said that not having seen the president since his arriving in the country he was hardly prepared to speak. Colonel Hay looks the picture of vigorous good health after his sea trip and New England outing.

Sheriff Colburn said that he had no further control of the miners, and feared that there would be loss of life. He asked for troops.

Governor Tanner promised the sheriff that he would order troops to Panama once to aid in the protection of life and property.

Captain Craig of Battery B of Galesburg was ordered to go with his men to Panama at once, and Colonel John B. Hamilton of Elgin was also ordered to report with two of the best equipped companies of his Sons of Veterans for riot duty. Colonel Hamilton will designate the companies.

The Emperor Prepared.

Pekin, Sept. 30.—The developments of palace affairs confirm the belief that the emperor, by the radical reforms which he had decreed, prepared himself for the blow struck by the dowager empress. The successive edicts furnish a history in the trend of affairs. The emperor's chief adviser, Kang Yu Wei, obtained unbounded influence over him and inspired the reforms. The official classes opposed him and consulted the dowager empress as to means for nullifying these reforms.

Washington, Sept. 30.—Attorney General Griggs will not make any political speeches during the fall campaign. Washington, Sept. 30.—Colonel Hay went to the state department. The first person to meet Colonel Hay as he entered the department was William Gwynn, the trusted messenger and chief usher of the department, who has served in that capacity since the days of Hamilton Fish. For Kentucky.—Rain, cooler in northern and eastern portions, south winds.

THE Hon. P. Wat Hardin has decided to make a formal announcement of his candidacy for Governor some time during October, says the Courier-Journal. He has fully determined to run, and for several weeks he has been condering as to the time when he should announce. Unless he changes his plans the formal announcement will come by October 15th. With Senator Goebel, Hon. W. B. Smith and General Hardin in the fight there are lively times ahead for the Democracy of the old Commonwealth.

AN! Now we have it. Secretary Alger, in an interview, tells just what caused all the suffering in the army camps and hospitals. Of course the War Department was in no way at fault. "The main trouble I found," said Secretary Alger, "was perhaps the lack of care the troops took of themselves. This was one of the greatest difficulties encountered. Tents outside the camps conducted by private enterprise proved too tempting for the soldiers, and the results of improper and injudicious eating soon manifested themselves in the general condition of the men." If the men are to blame for their sickness, wonder who was to blame for the neglect and inhuman treatment in the hospitals?

VERY HOT ROAST.

Harper's Weekly, Not a "Yellow Journal," but Read What it Says

About the Neglect and Inhuman Treatment of Our Soldiers By the War Department.

Harper's Weekly is not a "yellow journal." It is by far the most conservative and carefully edited paper in America. Its sources of information are without competition. It has kept in the field a corps of highly educated correspondents and artists who send it actual facts both in line and illustration. Here is what it has to say about the suffering of the American troops who enlisted under the country's flag to war with Spain:

"The country has had its war and its victory, and is now horrified at the consequences of army incompetency and mismanagement. We have our glory and are finding out the terrible cost of it. The other day the remnant of the Seventy-first regiment which was spared by war and disease came home to recover or to die. The men who rode could not have walked from the Battery to their armory without disastrous consequences. The regiment went to war 1,043 strong. It lost 14 killed in battle and 64 wounded and 331 were in line or in the cars. The rest were dead or on furlough, or in hospital in Cuba and at Camp Wikoff, and those who returned, most of them gaunt and yellow images of the men they had been, some of them so weak that they wept because of the kindness of their reception, while others stared at the cheering crowds with the wild strange look of men to whom the things of earth are of little moment.

"A terrible episode has occurred in the history of the country—an episode so criminal that the glory of war and victory has been dimmed by the wrath caused by the wrongs and sufferings of the soldiers who have fought the war and achieved the glory. We are seeing the other side of war, and it is even more terrible than it ought to be.

"Thirty-three years ago we saw the soldiers coming home after a war that had endured for four years. Many of them had lived in camps and fought over fields from which the skeletons of to-day are carried to the hospital. We saw the veterans of that great conflict march home. Their ranks were thin. Some companies brought back a file or two led by a non-commissioned officer. Some men rode in carriages; but they were wounded men, not sick with fevers. The men who marched moved with the vigorous stride of health. In that day we did not see such ghastly reminders of the war as we are seeing now in camp and on the return of the men who enlisted for the war, unless we saw the victims of southern prisons. Then we saw men starved because their Government could not reach them; now we see men starved because their Government, it would seem, has not the capacity to take care of them, and even seems indifferent to their suffering.

"The sufferings of our soldiers must not be forgotten. If the people of the country permit this scandal to find a grave before some one is punished, they will thereby make themselves accomplices in the crime. What has happened? An army of 250,000 has been raised. A successful campaign has been fought in Cuba with one corps. A triumphal progress has been made in Porto Rico by Gen. Miles. Manila has been captured by Admiral Dewey with the aid of troops under Gen. Merritt.

"The losses upon the field of battle were almost nothing. The ravages of disease and the hardships of the men by reason of neglect, of lack of food so great that men have died of starvation, of want of proper clothing, of sufficient tentage, are hideous; and the evil is still existing; in some quarters it is even spreading. Moreover, it is not confined to the troops who fought in Cuba. The men who were encamped in Florida and at Chickamauga are the victims of starvation and of disease-breeding conditions that were entirely preventable. If we should say that the Government is returning to the people an army rotting with disease, we should not greatly exaggerate. And this is absolutely true, that nothing that we have gained is worth the sacrifice which our men have suffered for it, for nothing which we have gained would have been lost if we had waited to take it until the army in all its branches was prepared for the adventure."

WELL, HOW'S THIS?

Republican Charge of Attempt to Deceive the Public Falls Flat.

They Find the State's Actual Bonded Indebtedness Just What the Democrats Said It Was.

[Louisville Dispatch.]

FRANKFORT, Ky., Sept. 28.—During the last State campaign the Republican newspapers and orators made much ado over what they claimed was an attempt by State Auditor Norman to misrepresent the total amount of the State's bonded indebtedness and make it appear much smaller than it really was. Maj. Norman in his report, showing the State's bonded indebtedness June 30, 1894, says the outstanding redeemable State bonds only amounted to \$674,000. He then states the amount of bonds held by the Board of Education, known as "school bonds," to be \$2,312,596.86, but made the following statement in explanation in a separate note, on page 42, of his report:

"The State and county school bonds, above recited, are not, strictly speaking, a debt of the State. They are unredemable; the fund is inviolate, and the 6 per cent. semi-annual interest drawn by these bonds is provided for out of the 5 cents of revenue placed to the credit of the sinking fund annually."

After the Republicans had made the open assertion that the State debt under Democratic administration was really about \$3,000,000 instead of the \$674,000, as claimed by Auditor Norman, now comes Auditor Stone, the Republican Auditor, and in his report showing the State's bonded indebtedness June 30, 1897, recites, on page 148 of the published report, that the school bonds amount to \$2,312,596.86, and then adds the following note, which is word for word the same as Auditor Norman's:

"The State and county bonds, above recited, are not, strictly speaking, a debt of the State. They are unredemable; the fund is inviolate and the 6 per cent. semi-annual interest drawn by these bonds is provided for out of the 5 cents of revenue placed to the credit of the sinking fund annually."

If the Republican claim in 1894 that the Democrats were trying to cover up the true amount of the State's indebtedness be true, then what are the Republicans doing in 1898?

The Democrats are hoping the Republicans will make up that much talked-of comparative statement of the doings of the last Democratic administration and the present Republican administration. The Democrats have already made the comparison, are more than satisfied with the showing, and the Democratic speakers are being furnished with the information.

Engagement Announced of Rev. Howard T. Cree and Miss Lillie Bryan Thomas.

[Shelbyville Sentinel.]

The engagement of Rev. Howard T. Cree and Miss Lillie Bryan Thomas is formally announced. The marriage will occur about the middle of December at the Christian Church in Shelbyville.

Beautiful in person, lovely in character and attractive in manner, Miss Thomas has been one of the most admired young women who has ever graced Shelbyville society, and her marriage and consequent removal will be a loss distinctly felt in the circle in which she has moved. Miss Thomas is the eldest daughter of Mr. Oswald Thomas, of this county, but for several years has made her home with her grandfather, Mr. James L. Long. She graduated from Science Hill in the class of '94 with high honors.

Mr. Cree is one of the ablest young ministers of the Christian Church in Kentucky and his exceptional social gifts make him no less popular in society than he is in the pulpit. He graduated from the Kentucky University several years ago with the degree of B. A., and later from the Bible College as a Bachelor of Theology. This year he won his degree of M. A. Mr. Cree is at present pastor of the church at Maysville, but he is best known in this county as pastor of the Simpsonville Church, which he served for three years while completing his college course, during which time he greatly endeared himself to his congregation and the community in general. His friends confidently predict a brilliant career for him.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that the feeding shall be regular and right. While he is doing this it is likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can find no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong, assimilation perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.
